Subject: Protect Portland's industrial jobs

The EPA should care about our economy and jobs and the environment

Taking care of our environment is important. We can all agree to that. A clean river is good for all Oregonians. But please remember that jobs are good for Oregonians, too. We need a flexible cleanup that respects the role the harbor plays in our economy.

Thank you for allowing me to weigh in on this important process. Please make sure the cleanup is good for our environment and our economy.

Sincerely,
